

**VINSAK NPM/480/570/630**

Automatic Numbering and  
Perforating Machine

**VINSAK**

## Features

- Lateral and Vertical Perforation
- Perfect Numbering Position and Legible Print with resin plate printing
- Numbering Speed up to 8,000 sheets per hour
- LCD computer controlling system (optional)
- Oil Free Vacuum Pump Technology
- Positive Limitation Protection for Safe Operation
- Automatic Powdering & Blower System
- High Quality Feeding Rubber-tired & Double Sheets Detection Device
- Chrome Plated Technology and Stainless Steel Material are used to protect the roller

Specification/Model	NPM480	NPM570	NPM630
Max. Paper Size	470x360mm	560x400mm	620x440mm
Min. Paper Size	180x150mm		
Paper Weight	28-250gsm		
Printing Speed	2000-8000 sheets/hour		
Ink Roller	6 rollers (ink form rollers: 2pcs)		
Number Capacity	Lateral: 7 row x 7 column=49 Vertical: 5 row x 8 column=40	Lateral: 7 row x 8 column=56 Vertical: 5 row x 10 column=50	Lateral: 7 row x 9 column=63 Vertical: 5 row x 11 column=55
Perforation	Min. space between lateral perforating knives: 10mm Min. space between vertical perforating knives: 30mm		
Power for Main Motor	0.75KW	0.75KW	1.5KW
Power for Pump Motor	0.75KW		
Power Supply	220V/50HZ		
Dimensions	1780x935x1120mm	1900x1020x1120mm	2060x1150x1120mm
Net Weight	280kg	320kg	370kg
